

An Informative Two-day Seminar:

MIOSHA Construction 10-Hour Course

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MIOSHA Training Institute introduced a new certification program, effective October 1, 2007. This course is an MTI Level 1 course. The certification program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses will be offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certification program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This 10-hour program presents an overview of MIOSHA regulations for the construction industry. Detailed information is presented to enable the participant to develop an accident prevention plan as required by Rule 114 of MIOSHA Construction Safety Standard Part 1, General Rules. An overview of MIOSHA inspection procedures is presented as well as the most frequently cited MIOSHA violations in the construction industry. Participants gain detailed information regarding construction and health standards relative to the industry. **Students will receive both MIOSHA and OSHA 10-hour cards upon successful completion of the class.**

Construction Level One
MTI Certification

***This course has been approved for residential builders
pre-licensure safety training requirements.***

All meetings are accessible and barrier free. Please contact the cosponsor or CET Division, at least two weeks in advance, to request necessary accommodations.

Facilitator

James Dykes began his career with MIOSHA in 2001 as a compliance officer with the Construction Safety and Health Division. Although an effective compliance officer, Jim had an interest in the teaching and consulting aspects of MIOSHA. He joined the CET Division in December of 2004 as a traditional consultant specializing in construction safety. In his capacity as a construction consultant, Jim services the Upper Peninsula and several counties in the Lower Peninsula.

Previous to joining MIOSHA, Jim spent 23 years as an overhead line worker achieving journeyman status in that field. His specialty allows him to be an excellent resource in the transmission and distribution aspects of high voltage electricity. Jim especially enjoyed troubleshooting difficult situations in overhead line installation and replacement that not only got the job done, but also protected the workers doing this dangerous work. Jim brings this enthusiasm and expertise to his consultation and teaching assignments.

Presenters: James Dykes, Construction Safety Consultant; and
Cindy Zastrow, Industrial Hygienist; MIOSHA-CET Division

James Dykes
*Senior Construction Safety Consultant,
MIOSHA, CET Division*
